

Elevate the ambiance of your meeting spaces with the Dual- Sided E-Paper Nameplate

This Dual-Sided 14.7" E-Paper Table-Top Nameplate Elevate the ambiance of your meeting spaces with the Dual-Sided E-Paper Nameplate, a sophisticated and timeless solution that effortlessly integrates into any high-end corporate or professional environment. Crafted to exude elegance, this nameplate seamlessly combines cutting-edge functionality with refined aesthetics, ensuring that your workspace remains organized and efficient without compromising on style.

Designed to impress, it combines functionality with style, ensuring your space stays organized and efficient. Its compact profile makes it ideal for spaces where aesthetics and functionality need to go hand in hand.

Enjoy crystal-clear text and graphics with minimal reflections and flicker, thanks to the high-quality E-Paper display technology. The wide viewing angle ensures that your content is always visible, and the display can be easily read from different perspectives, even under bright lighting conditions.

The Nameplate Manager Software provides a simple, intuitive interface for managing nameplates, with extensive templates and customization options available. This empowers you to tailor the nameplates to your needs, displaying participant names, titles, or any other relevant information, improving engagement and collaboration.

For developers, the WAPI server allows for seamless integration with third-party software and hardware. Whether it's Televic, Bosch Dicontis conferencing systems, or other technologies, the integration process is straightforward, providing versatility and scalability for various setups.

You could present information independently on both sides, offering a name on the audience side and essential meeting details like the agenda or what you desire on the attendee side.

Through LAN *Wi-Fi functionality, updating the content on your nameplate is quick and easy. This flexible content management system and mobile app ensures that you can always stay up-to-date with participant information or any changes that arise.

For added customization, the top **LED indicator** color can be adjusted to suit your preferences, providing a further level of personalization.

With attention to detail we have included a **pencil holder**, place the pencil in the recessed groove.

ensuring that it remains cost-effective while maintaining high performance. Power via POE LAN or USB-C PD, With Wi-Fi (*optional) or LAN with No POE architecture.

Customization Upon request, Wellondore can offer customization.
