

Introducing the VP-4B Vote Flush Panel.

A sleek, flush-mounted solution designed to enhance modern meeting and conference spaces. It is fully compatible with Wellondore WAPI software.

It seamlessly connects to our premium Nameplates via the RJ11 plug, minimizing installation requirements. The panel can also operate with its own dedicated cable architecture.

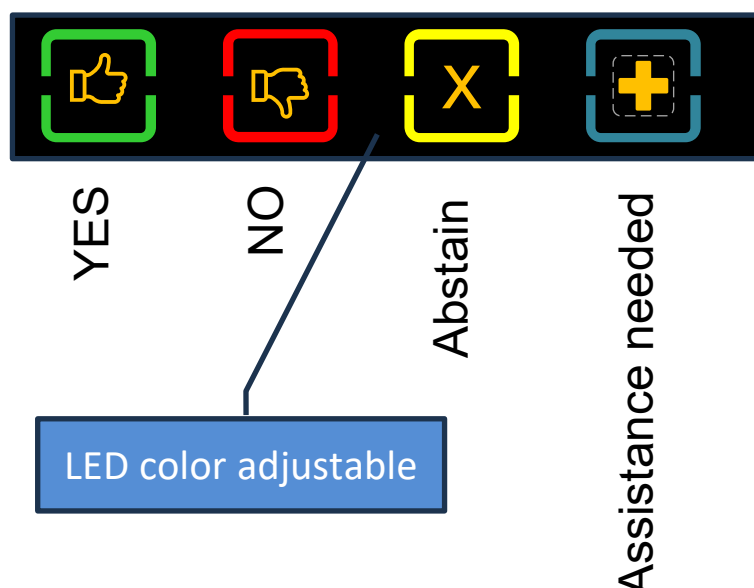

The included Nameplate Manager software, which integrates voting functionality, provides a user-friendly interface with flexible options to simplify meeting preparations.

REST API:

With the WAPI server, integrating third-party software and hardware—such as Televic, Bosch Dicontis conferencing systems, and more—becomes a straightforward task for developers.

Highlights

- **Flush** Mount for a Sleek, Modern Design
- **Durable**, Rugged Construction for Long-Lasting Performance
- **User-Friendly** Nameplate Manager Software
- **API** Support for Seamless Third-Party Software Integration
- **Enhanced** Readability with Minimal Reflections and Flicker
- **Customizable** LED Colors for Added Control and Personalization
- **Direct** Compatibility with Our Premium Nameplates

Mechanical

Material Chassis	ALU/Steel and PC/ABS
Material Bezel	Alu / Glass /PC ABS
Color Chassis	Black
Color Bezel	Black
Color Screening	Pantone 421C
Size (mm)	116,2(l) × 69 (w) × 23 (h)
Size packed (mm)	200 (l) × 178 (w) × 160 (h)
Weight	0.2 kg.
Weight packed	0.8 kg.

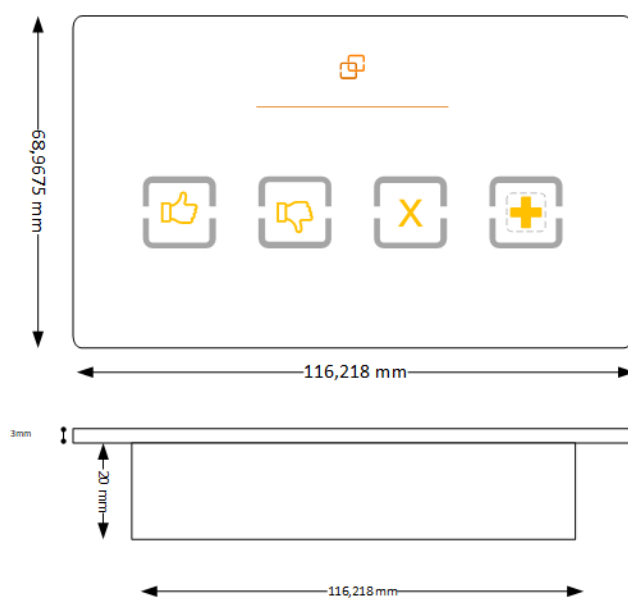

Electrical

Power	POE star , USB-C *
Special Cable	USB-C - RJ11
Active consumption	0.3 W
On Raad-map (future)	Wifi* (soon available)

Certifications

Europe	CE
