

Triangle Name Plate Dual sided 10.8"

Model:TRI-NP-1085D

Sleek, Modern Design for Professional Environments

The Triangle Dual-Sided E-Paper Nameplate is the ultimate solution to enhance the atmosphere of your meeting room with a sophisticated, professional aesthetic. Its 10.8-inch display offers a sleek, modern design that integrates seamlessly into any corporate or professional setting. Designed to impress, it combines functionality with style, ensuring your space stays organized and efficient. Its compact profile makes it ideal for spaces where aesthetics and functionality need to go hand in hand.

Enjoy crystal-clear text and graphics with minimal reflections and flicker, thanks to the high-quality E-Paper display technology. The wide viewing angle ensures that your content is always visible, and the display can be easily read from different perspectives, even under bright lighting conditions.

The Nameplate Manager Software provides a simple, intuitive interface for managing nameplates, with extensive templates and customization options available. This empowers you to tailor the nameplates to your needs, displaying participant names, titles, or any other relevant information, improving engagement and collaboration.

For developers, the WAPI server allows for seamless integration with third-party software and hardware. Whether it's Televic, Bosch Dicentis conferencing systems, or other technologies, the integration process is straightforward, providing versatility and scalability for various setups.

Whether through LAN, Wi-Fi, or NFC functionality, updating the content on your nameplate is quick and easy. This flexible content management system and mobile app ensures that you can always stay up-to-date with participant information or any changes that arise.

With just a touch on the top of the panel, you can activate the customizable LED-Top indicator. The Nameplate Manager Software or API allows you to choose the right color to suit the ambiance of your meeting room. If your nameplate is not used with a conferencing system, this function can act as "raising hands," simple voting, or even summon staff.

The Triangle E-Paper Nameplate operates with minimal power consumption, ensuring that it remains cost-effective while maintaining high performance. Power is easily managed via LAN or Wi-Fi (optional).

Customization Upon request, Wellondore can offer customization. Custom logo: Laser printing/Silk printing/Engraving/UV printing. Bezel: color: Black/Silver/Grey/Blue/Red/Gold/Yellow/Green Other: please contact us.

Highlights

- Sleek, Modern Design for Professional Environments
